

# Two different constituents from Maitake mushrooms (*Grifola frondosa*)

Mushroom Type	Maitake ( <i>Grifola frondosa</i> )
Method Extraction	Ethanol/Hot Water
Bioactive Constituents	<i>glycoprotein</i>
Healthy Support	Blood Sugar Levels

Maitake ( <i>Grifola frondosa</i> )
Hot Water
<i>proteoglucan</i>
Immune

The SX-Fraction is a researched and patented (US Patent #7,214,778) advanced extract of the Maitake mushroom (*Grifola frondosa*) that is distinct from the D-fraction, which is the choice for immune support.\*

The SX-Fraction concentrates the *glycoprotein* that research has shown supports healthy blood sugar and insulin function while supporting cardiovascular health.\*
